

3rd European Conference on Teaching & Learning Politics, International Relations & European Studies:

31 May - 1 June 2018, Prague

Conference Venue

[Faculty of Social Sciences, Smetanovo nabr. 6, Prague](#)

How we teach and learn matters – for students, for society, for us

With increased attention to the quality of learning in Higher Education, notions like “relevance”, “impact”, “innovation” and “quality assurance” became a wide-spread vocabulary. Everyone agrees that what students learn at universities should be relevant: for academic deliberations, by contributing to the wider public discourse, for students’ professional life after their studies. The third European Teaching and Learning Conference is going to discuss best practices and critical reflect on HOW we can ensure various forms of relevance in teaching and learning.

The Faculty of Social Sciences at the Charles University in Prague is hosting the 3rd European Teaching and Learning Conference, which is jointly organized by [BISA](#), [ECPR](#), [PSA](#) and [UACES](#).

The 3rd edition of our European Conference on Teaching and Learning Politics, International Relations and European Studies continues the tradition of practicing what we preach: enough room for exchange, reflection, and deliberation; interactive sessions that provoke, challenge, and give ideas; actively experience learning.
